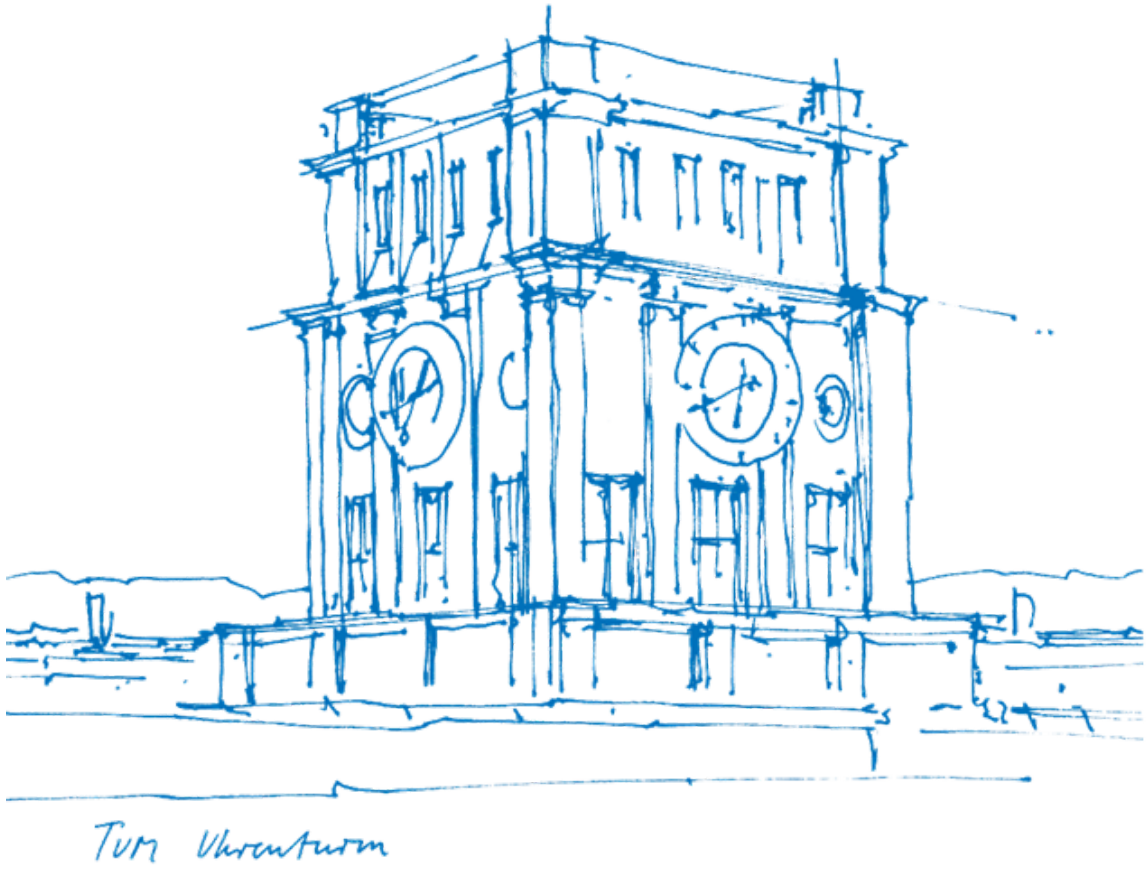
Marp Header

```yaml
title: Demo
description: Demo TUM Marp Template
class: invert                                   # Dark theme all slides (remove to use light theme)
_class:                                         # First slide
  - invert                                      # Dark theme for title slide
  - lead                                        # Title slide style
footer: Presentation Title | Author Name        # Slide footer
_footer: ""                                     # No footer on title slide
paginate: true                                  # Page numbers
_paginate: false                                # No page numbers on title slide
marp: true                                      # Nice preview for the VS Code extension
```

Light Theme



Light Theme Slide

Bullet Points

- Show all
- at once
- or one
- by one

Tables

Header	Header
Text	Text

Images

Background Images

- Full Size

Background Images Customized

- 60% slide width
- 80% image size

Code

```
#include <iostream>

int main(int /*argc*/, char** /*argv*/)
{
    std::cout << "Code with syntax highlighting!" << std::endl;

    return EXIT_SUCCESS;
}
```
